Professional Summary

Aspiring Full Stack Developer with a strong foundation in web development and data science. Proficient in HTML, CSS, JavaScript, Python, and R, with hands-on experience in building responsive web applications and implementing machine learning models. Demonstrated ability to work collaboratively in team environments and a keen interest in continuous learning and professional development.

Education

Bachelor of Engineering in Computer Science

Lords Institute of Engineering and Technology, Hyderabad

Expected Graduation: 2026

Certifications

- Full Stack Web Development – DevTown
- Python for Data Science – IBM
- Tools for Data Science – IBM
- Data Science Methodology – IBM

Technical Skills

Languages: Python, R, C

Web Technologies: HTML, CSS, JavaScript

Frameworks & Libraries: Responsive Web Design

Tools & Platforms: Jupyter Notebook, Git

Domains: Full Stack Web Development, Data Science

Projects

Photography Portfolio Website -

<https://muddassir-04.github.io/photography-portfolio/>

Technologies Used: HTML, CSS, JavaScript

Developed a personal photography portfolio using HTML, CSS, and JavaScript. Emphasized responsive design and seamless user experience.

Movie Recommendation System -

<https://github.com/Muddassir-04/Movie-Recommendation-System>

Technologies Used: Python, Deep Learning, Collaborative Filtering

Implemented a movie recommendation system leveraging deep learning techniques to analyze user preferences and provide personalized movie suggestions.

Analyzing stock performance and building dashboard -

https://github.com/Muddassir-04/python_project

(This project is a part of IBM data science professional certificate) As part of a dynamic startup investment firm, I'm spearheading a project to develop an advanced financial data dashboard. The goal is to empower investors by providing clear and actionable insights into stock performance

Zomato Landing Page Clone -

https://github.com/Muddassir-04/zomato_landing_page

Technologies Used: HTML, CSS, JavaScript

Created a responsive clone of Zomato's landing page, focusing on design aesthetics and user interface replication.

Myntra clone -

<https://github.com/Muddassir-04/myntra-clone>

Built a basic clone page of myntra shopping website using technologies HTML, CSS and JavaScript.

Professional Experience

Deloitte Technology Job Simulation (Full Stack Developer) - 1 Month

Completed a virtual simulation program focusing on full stack development tasks, gaining insights into real-world software development processes and client interactions.

Campus Ambassador – International Model United Nations (IMUN)

Represented IMUN on campus, promoting events and encouraging student participation in international conferences.

Student Ambassador – Internshala

Acted as a liaison between Internshala and the student community, facilitating awareness about internships and online training programs.

Extracurricular Activities

Core Team Member – CodeWave Hub

Contributed to organizing coding events and workshops, fostering a community of tech enthusiasts within the college.

Organizer @Hackprix

A 36 hour hackathon
